

S E S I Ó N

***SPARK***

## **Presentation of a methodology, concept, or practical and high-impact improvement.**

You will learn how to achieve short-term changes through simple and powerful projects that impact the reliability of your plant.

In the Spark Session, we discussed the problem, the technical foundation, and step-by-step implementation, including details and expected financial and reliability benefits.

The Spark Session is designed to give you noticeable results in your strategy.

# Making SAP EAM Work for or Against You, Not Against You

**Drew D. Troyer, CRE, CEM**

Principal Advisor, Bootleg Advisors, Inc

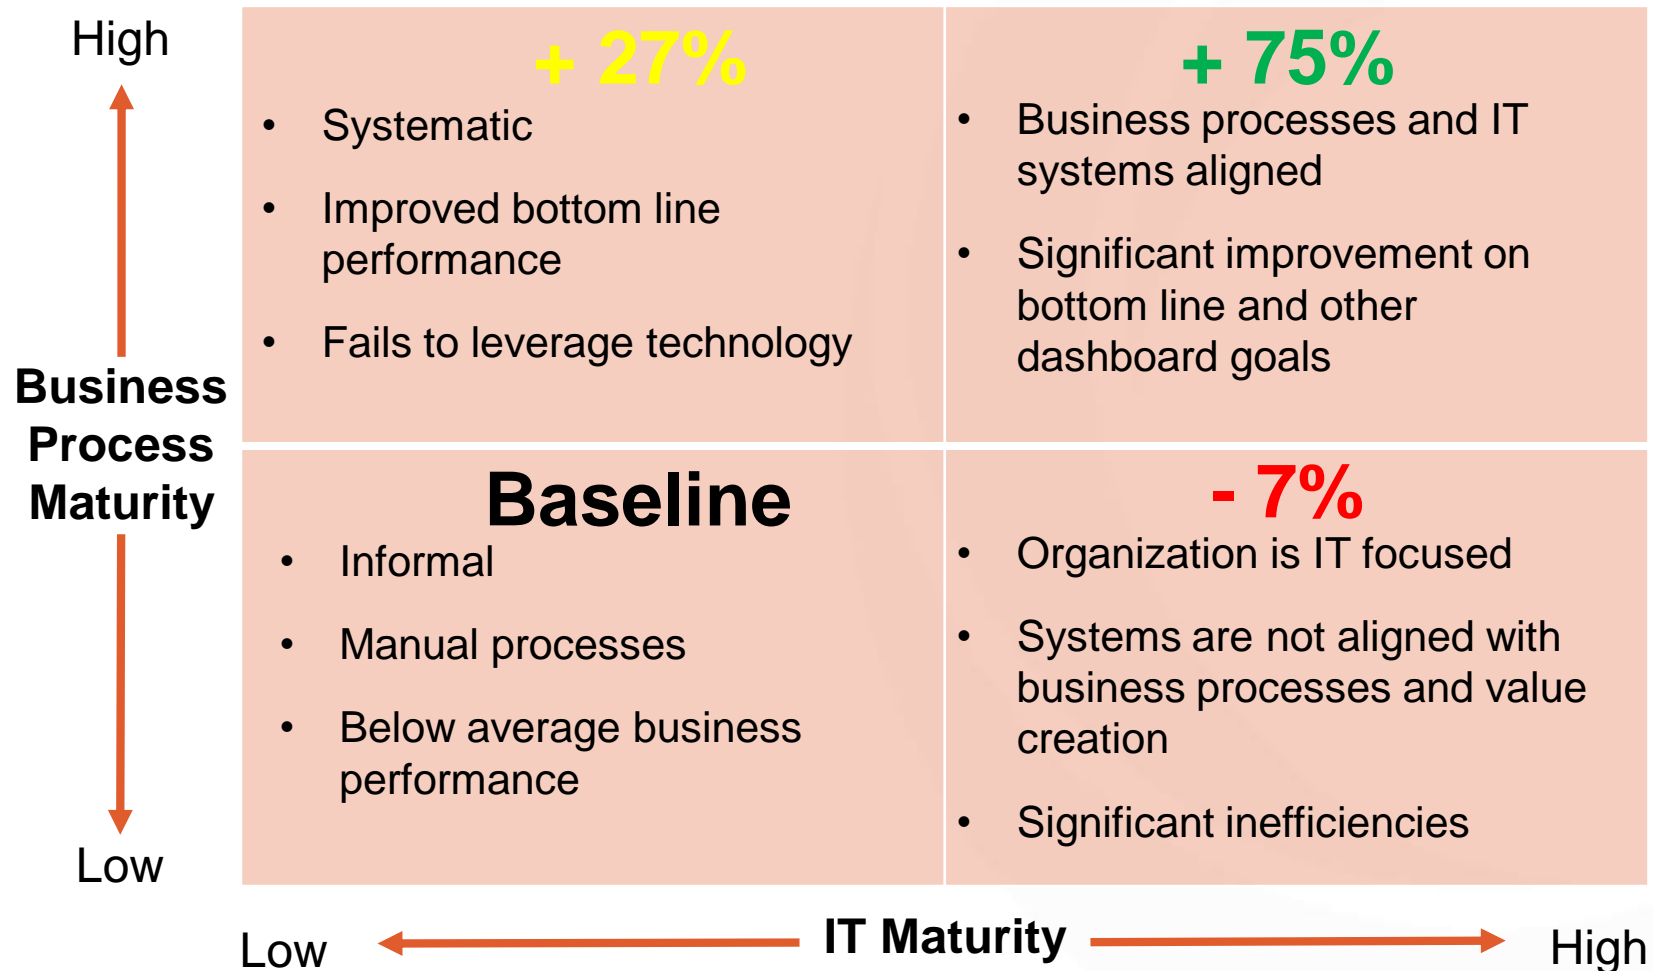

**Does Your EAM  
system work for you?  
Or do you work for  
Your EAM system?**

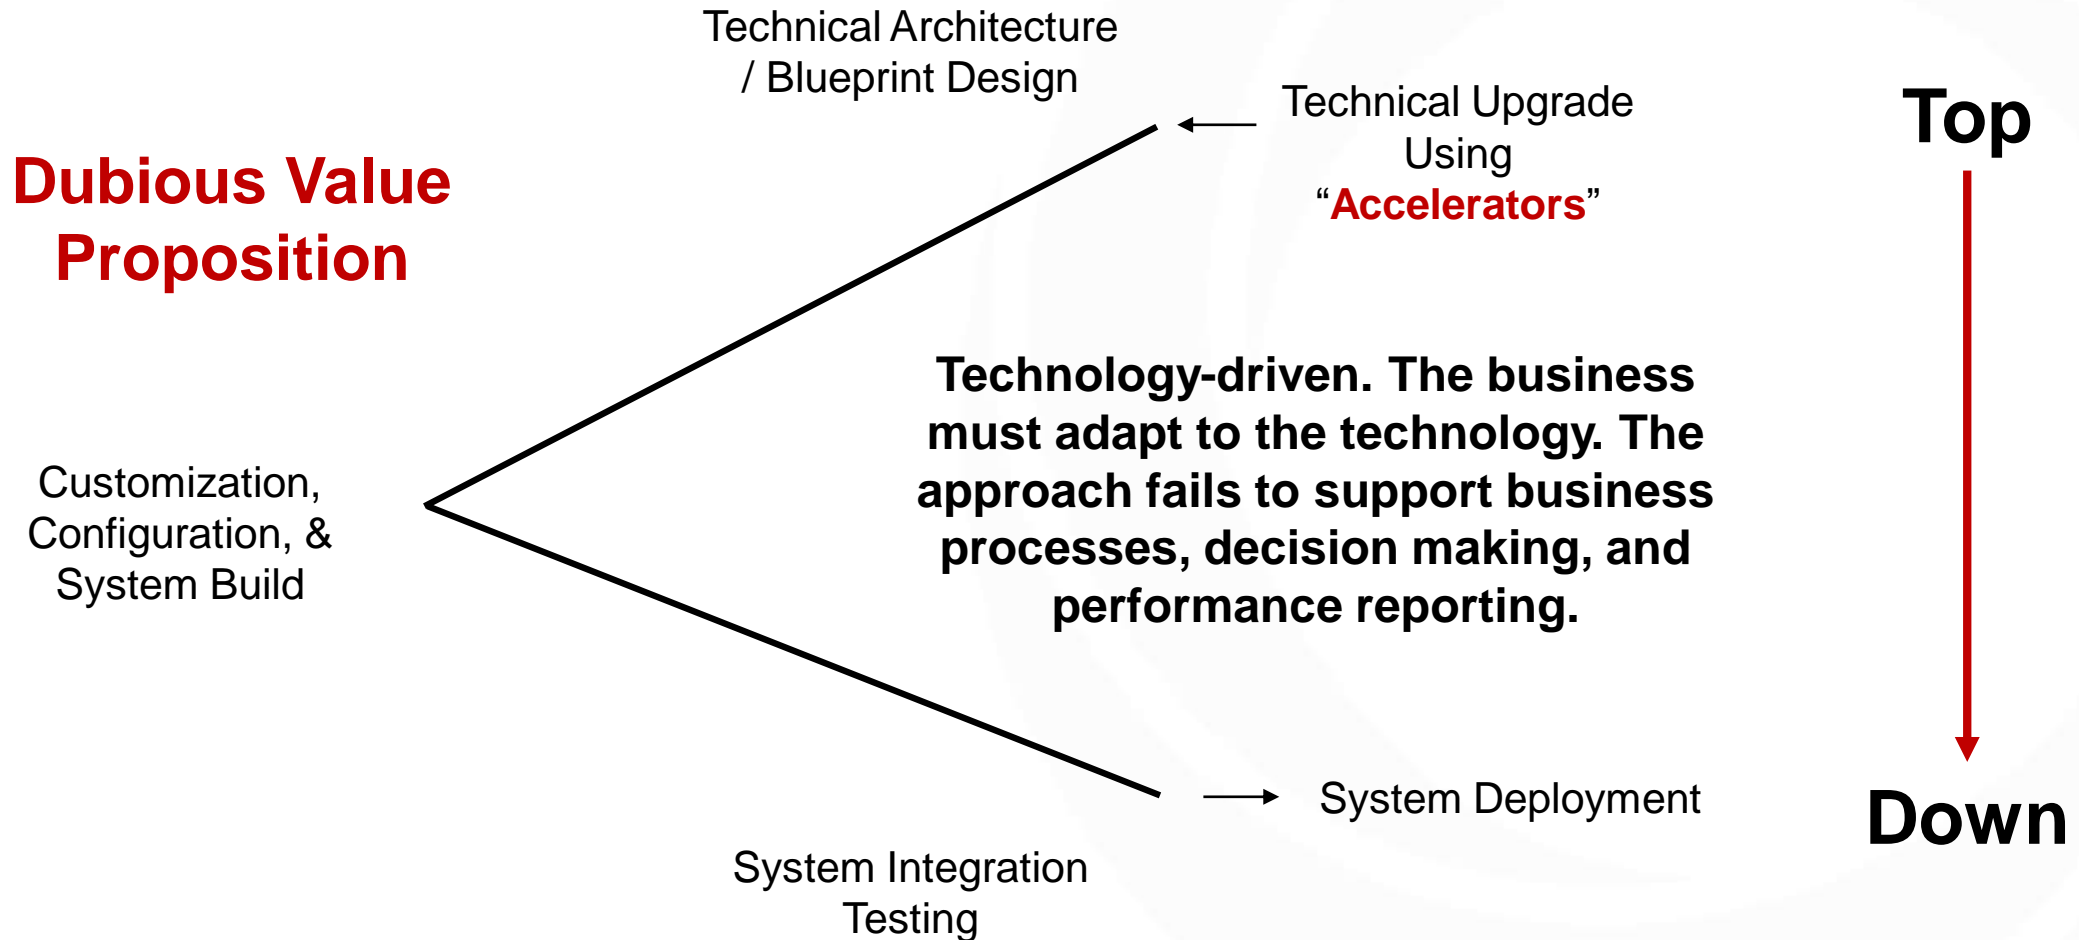

# Meeting Overview

- Business Process vs. IT Maturity – Value Proposition
- EAM Configuration – the traditional “Lift & Shift
- A Fresh Look - Business Process-Centered (BPC) EAM/ERP Configuration
- KPIs – the Critical Link to Driving Business Processes

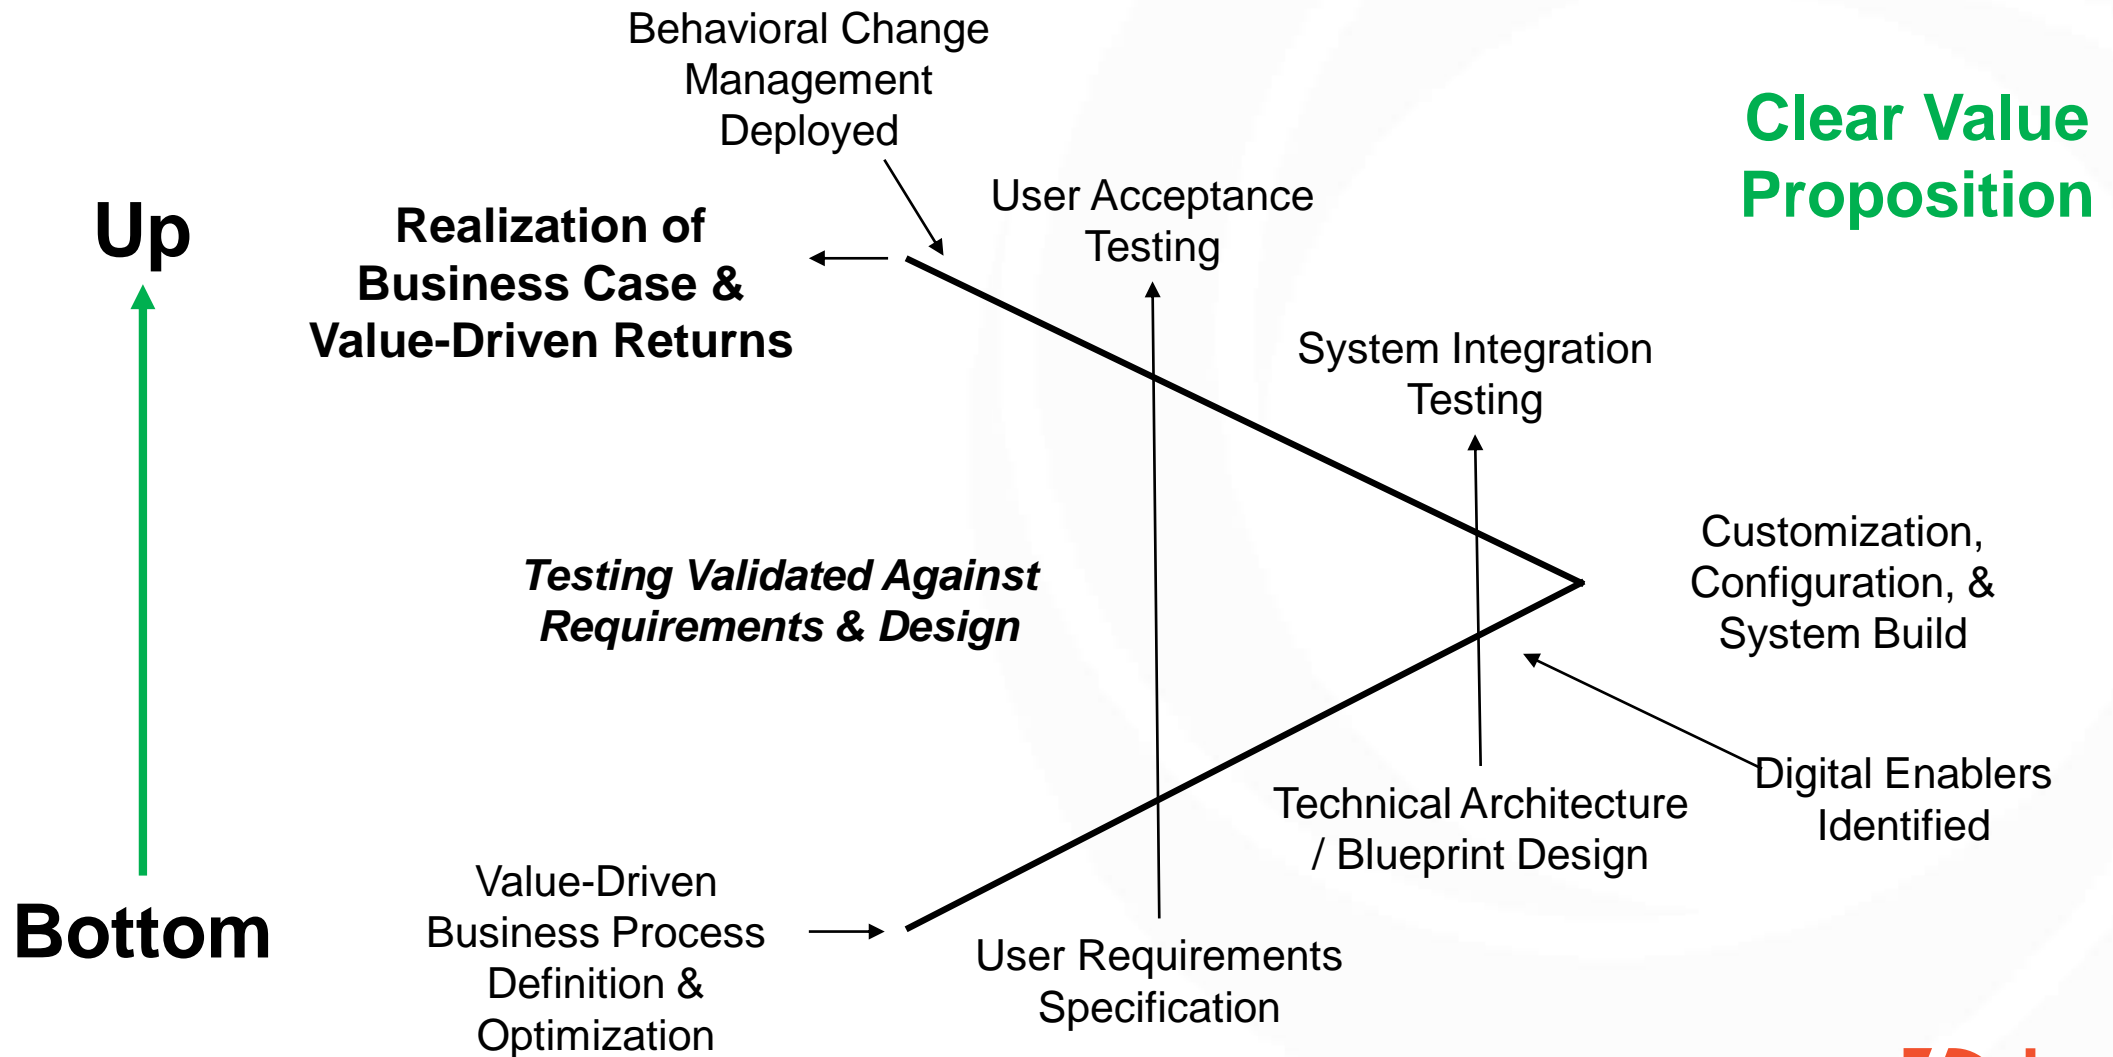

# Motivation for Business Process-Centered Approach

# Traditional “Lift & Shift” ERP/EAM Integration

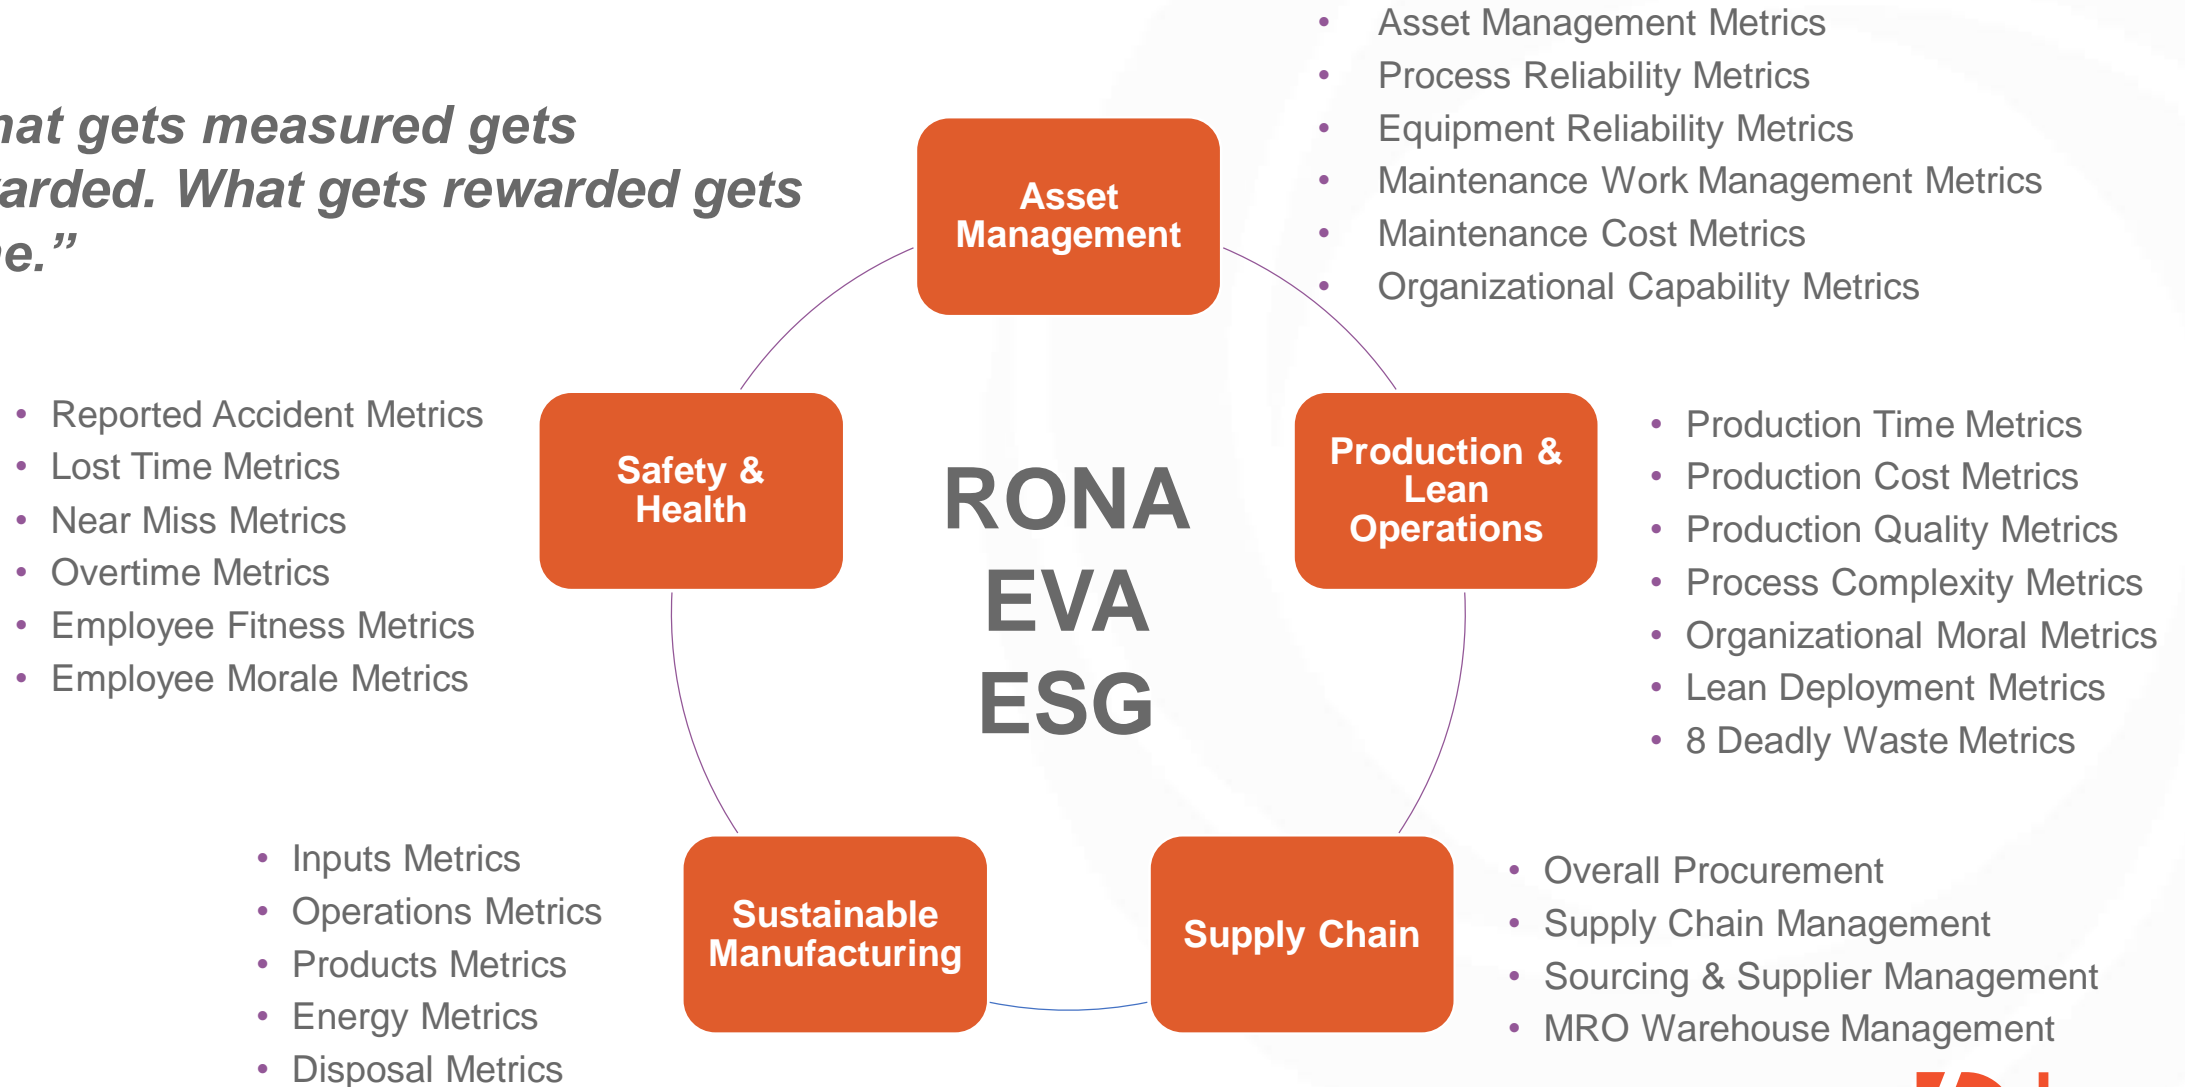

# Business Process-Centered Approach

Ref: Troyer & Callen

# EAM-Enabled KPIs Breakdown Silos

*“What gets measured gets rewarded. What gets rewarded gets done.”*

Ref: Drew Troyer, CRE, CEM

**Get your EAM system  
working for you, not  
against you!**
